9. WARNINGS AND FORWARD-LOOKING STATEMENTS

9.1 Warning: Do not participate in this SL TS if you are not familiar with or do not understand cryptocurrencies, cryptographic tokens, and blockchain-based software systems.

9.1.1 Only parties having significant experience with, or an understanding of, the use and intricacies of cryptocurrencies, cryptographic tokens, and blockchain-based software systems should participate in SL TS.

9.1.2 While the Company will provide general guidelines in relation to use and storage of Tokens, you should have a functional understanding of storage and transmission mechanisms associated with cryptocurrencies, cryptographic tokens, and blockchain-based software systems. While the Company will be available to assist you during and after the SL TS, no will be liable for any Loss arising out of, or in any way connected to any actions taken by, or any omissions by any User.

9.2 Warning: Token price may experience extreme volatility

9.2.1 Cryptographic Tokens or cryptocurrencies that possess value in public markets, such as Lumens, Bitcoin, Ether, have demonstrated extreme fluctuations in price over short periods of time on a regular basis. You must be prepared to accept similar fluctuations in Token value. Such fluctuations are due to market forces and represent changes in the balance of supply and demand. The Company cannot and does not guarantee any market liquidity for Tokens. Additionally, due to different regulatory requirements in different jurisdictions, and the inability of citizens of certain countries to open accounts at exchanges located anywhere in the world, the liquidity of Tokens may be markedly different in different jurisdictions.

9.2.2 By participating in the SL TS, or receiving and holding Tokens, you acknowledge and agree that you fully understand that Tokens may experience volatility in pricing and liquidity, and that, to the extent permitted by applicable law, you agree that no other party (including, without limitation the Company) may be held liable for any Loss arising out of, or in any way connected your participation in the SL TS, or receiving and holding Tokens.

9.3. Warning: Receiving Tokens has a number of risks

9.3.1 Tokens carry risks.

Prior to receiving Tokens, you should carefully consider such risk and, to the extent necessary, consult with an appropriately qualified advisor. If any of the following risks are unacceptable to you, you should not accept Tokens. By participating in SL TS, or receiving and holding Tokens, you acknowledge and agree that you understand the risks described below and that, to the extent permitted by applicable law, you agree that no other party (including, without limitation the Company) may be held liable for any Loss arising out of, or in any way connected with your participation in SL TS, buying Tokens, or receiving and holding Tokens or such risk.

9.3.2 Risk of dissolution of the Company due to a diminishment in the value of other cryptocurrencies, cryptographic tokens, and blockchain-based software systems.

Users are using cryptographic tokens or cryptocurrencies to participate in the SL TS, or receive and hold Tokens. While some of these may have been relatively stable, it is possible that their values may drop significantly in the future, which may deprive the Company of sufficient resources to continue to operate.

9.3.3 Risk of regulatory action in one or more jurisdictions.

Cryptocurrencies, cryptographic tokens, and blockchain-based software systems have been the subject of regulatory scrutiny by various regulatory bodies in numerous jurisdictions. The Platform and Tokens could be impacted by one or more regulatory inquiries or regulatory actions, which could impede or limit the ability of the Company to develop the Platform.

9.3.4 Risk of insufficient interest in the Platform or SLT.

It is possible that the Platform or SLT will not be used by a large number of individuals, businesses and other organizations and that there will be limited public interest in the creation and development of its functionalities. Such a lack of interest could impact the development of the Platform. The Company will contract with developers to help build the Platform, and is working with third-party developers around the world to create an interest in the Platform. However, the Company cannot predict the success of these development efforts or the efforts of other third parties.

9.3.5 Risk that the Platform, as developed, will not meet Token holder expectations.

The Users acknowledge that the Platform is currently under development and may undergo significant changes before release. The Users acknowledge that any expectations regarding the form and functionality of the Platform held by the Users may not be met upon its release for any number of reasons, including a change in the design and implementation plans and execution of the implementation of the Platform.

9.3.6 Risk that the Platform may never be completed or released.

The User understands, that while the Company will make reasonable efforts to complete the Platform, it is possible that an official completed version of the Platform may not be released and there may never be an operational Platform.

9.3.7 Risk of theft.

Hackers or other groups or organizations may attempt to steal Tokens.

The User understands and accepts that, as with other cryptocurrencies, cryptographic tokens, and blockchain-based software systems, the Stellar blockchain used for SL TS is susceptible to hacking attacks. Any successful attacks present a risk to SL TS, expected proper execution and sequencing of Token transactions, and expected proper execution and sequencing of contract computations.

9.3.9 Weaknesses or exploitable breakthroughs in the field of cryptography.

Cryptography is a rapidly developing field with advances in code cracking and technical advances, which could present a risk to SL TS and potentially result in the theft or loss of Tokens. To the extent possible, the Company intends to update the protocol underlying the Platform to account for any advances in cryptography and to incorporate additional security measures, but it cannot predict the future of cryptography or the success of any future security updates.

9.4 Forward looking statements

9.4.1 the Website, the Whitepaper, and other documents related to SL TS may include forward-looking statements. Often, but not always, forward-looking statements can be identified by the use of words such as "believes," "expects," "does not expect," "is expected," "targets," "outlook," "plans," "eta", "scheduled," "estimates," "forecasts," "intends," "anticipates" or "does not anticipate" or variations of such words and phrases or statements that certain actions, events or results "may," "could," "would," "might" or "will" be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Although the Company believes it has a reasonable basis for making these forward-looking statements, you must not place undue reliance on such forward-looking information. By its nature, forward-looking information involves numerous assumptions, inherent risks and uncertainties, both general and specific, which contribute to the possibility that the predictions, forecasts and other forward-looking statements will not occur.

9.4.2 By participating in the SL TS, receiving and holding Tokens, or using the Website, you acknowledge and agree that you fully understand and accept the risks in clause 9.4.1, and to the extent permitted by applicable law, you agree that no other party (including, without limitation the Company) will be held liable for any Loss arising out of, or in any way connected with your participation in SL TS, receiving or holding Tokens or use of the Website.

10. MISCELLANEOUS

10.1 Entire Agreement. This Agreement is intended to fully reflect the terms of the original agreement between the Parties. No provision of the Agreement shall be considered waived unless such waiver is in writing and signed by the Party that benefits from the enforcement of such provision. 10.2 Assignment. You may not assign your rights or delegate your duties, and any assignment or delegation without our written consent shall be void.

10.3 Severability. It is hereby stipulated and declared to be the intention of the Parties that they would have executed the remaining terms, provisions, covenants and restrictions without including any of such that may be hereafter declared invalid, illegal, void or unenforceable.

10.5 The Company is not liable in any way for failure to perform due to any Force Majeure Event. By participating in the SL TS, or receiving and holding SLT, to the extent permitted by applicable law, you agree that no other party (including, without limitation the Company) may be held liable for any Loss arising out of, or in any way connected to, any Force Majeure Event.

10.6 The User may send any questions regarding the use of the Website OR of SLT OR regarding this Agreement via contact details with Website.

EXHIBIT A

1. Initial Total Supply of Tokens will be 100 million Tokens
 - (a) 50% of the Initial Token Supply will be Sale Tokens
 - (b) 50% of the Initial Token Supply will be Non-Sale Tokens

2. **Sale Tokens.** 50 million Tokens (the “**Sale Tokens**”) are allocated for sale in the Crowdsale and the Pre-Sale. See Exhibit B.
 - (a) Any Sale Tokens that remain unsold after the Crowdsale will be burned within one day after the end of the Crowdsale.
 - (b) Additionally, the same amount as amount of Token burned according to (a) of Non-Sale Tokens will be burned. Thus, amount of Tokens sold during the Crowdsale and Pre-Sale will be equal to 50% of total amount of Tokens after burning

3. **Company Inventory.** 20% of total amount of Tokens after burning will be allocated to Company (the “**Company Inventory**”), for its use as follows:
 - (a) 5% of total amount of Tokens after burning of the Company Inventory will be immediately available for use by Company. 5% of total amount of Tokens after burning of the Company Inventory will be locked for one (1) year from the Crowdsale End Date; another 5% of total amount of Tokens after burning will be locked for two (2) years from the Crowdsale End Date; and another 5% of total amount of Tokens after burning will be locked for three (3) years from the Crowdsale End Date.
 - (b) Once unlocked, Company reserves the right to use the Company Inventory for any purposes at its sole discretion.

Company reserves the right to prescribe lockup requirements regarding the Incentivization Supply Tokens distributed to third parties.

EXHIBIT B

Crowdsale Pricing, Terms, and Conditions

1. Price Per Token. Tokens will be sold in the Crowdsale at the U.S. Dollar (“USD”) price of \$0.50 (the “Price Per Token”).

2. Payment Currency; Exchange Rate. While the Price Per Token is set in USD, you must pay for Tokens in ETH, BTC or XLM. At the time of your purchase of the Tokens, there will be an offer for each currency on Stellar distributed exchange with the Purchase Price (as defined below) based on the ETH/USD, BTC/USD, XLM/USD exchange rates. Processing of payments in ETH and BTC will be done with Bifrost – an opensource application developed by developers of Stellar.

3. Bonus Tokens. Purchasers will receive additional Tokens based on the number of Tokens they purchase (“Bonus Tokens”), as follows:

(i) The purchasers of Sale Tokens sold in the first day of the Crowdsale will receive 0.2 Bonus Tokens for each Token purchased. The bonus tokens will be obtained as a result of appropriate price of the Token in USD to calculate Purchase Price. The correspondent Token price in USD will be $0,5\text{USD}/(1+0.2)=0,416667$ USD.

(ii) The purchasers of Sale Tokens sold between start of second and forth day of the Crowdsale will receive 0.15 Bonus Tokens for each Token purchased. The bonus tokens will be obtained as a result of appropriate price of the Token in USD to calculate Purchase Price. The correspondent Token price in USD will be $0,5\text{ USD}/(1+0.15)= 0,434783$ USD.

(iii) The purchasers of Sale Tokens sold between the 4th day and the 6th day of the Crowdsale will receive 0.1 Bonus Tokens for each Token purchased. The bonus tokens will be obtained as a result of appropriate price of the Token in USD to calculate Purchase Price. The correspondent Token price in USD will be $0,5\text{ USD}/(1+0.11)= 0,454545$ USD.

(iv) The purchasers of Sale Tokens sold between the 6th day and the 11th day of the Crowdsale will receive 0.05 Bonus Tokens for each Token purchased. The bonus tokens will be obtained as a result of appropriate price of the Token in USD to calculate Purchase Price. The correspondent Token price in USD will be $0,5\text{ USD}/(1+0.05)= 0,47619$ USD.

(v) The purchasers of the remainder of the Sale Tokens sold in the Crowdsale will not receive any Bonus Token

Exhibit C.

General conditions of the presale last-day refund program

- 1.** To get the refund, the SLT token presale participant must send back SLT tokens from the same wallet that has received the SLT tokens from the Smartlands smart contract and the amount of SLT tokens cannot exceed the amount of SLT tokens received by the wallet during last 24 hours of the SLT token presale.
 - 1.1.** A presale participant cannot get refund by sending Ethereum based SLT tokens once he/she received Stellar based SLT.
 - 1.2.** To get the refund once Stellar based tokens are obtained, a presale participant must send the whole amount of received SLT to the issuing account from the account that was provided with SLT by Smartlands on participant's request, with prior notification to contact@smartlands.io.
- 2.** Only SLT tokens purchased during the last 24 hours of the SLT token presale are eligible for refund under these conditions.
- 3.** You can claim refund within one week after the end of the SLT sale, thus, SLT tokens can be sent back not earlier than 12:00 UTC +00:00 on November 12, 2017 and not later than 12:00 UTC +00:00 on November 19, 2017
- 4.** Refund scenarios
 - 4.1** Under the basic scenario of fully successful crowdsale of SLT tokens (total contributions that exceed 10000 ETH) you will have an option to return the tokens to Smartlands and get back ETH in the amount 20% more than you invested during last day of the presale. You may keep SLT tokens instead if you believe SLT tokens will be worth more.
 - 4.2** Under the mediocre scenario, when Smartlands token crowdsale is considered successful, but total contributions will not reach 10000 ETH, you have an option to get your ETH back (on the return of SLT tokens), but without 20% bonus.
 - 4.3** Under the worst-case scenario, when Smartlands token crowdsale is considered unsuccessful (total contributions will not reach 3500 ETH), Smartlands will distribute back all the collected ETH during the crowdsale, less marketing expenses for the main crowdsale campaign but not less than 50% of the initial amount of ETH spent on SLT.
